

DOT Medical Clearance: PACEMAKER

DOT Physical Exam Medical Clearance

Patient _____

Date _____

DOB _____

The above driver has presented for a DOT medical certificate to drive a commercial motor vehicle. Per Federal Motor Carrier Safety Administration medical guidelines, we ask for your professional opinion to determine if the driver is medically cleared to operate a commercial vehicle and that s/he meets the following FMCSA medical guidelines for drivers with a history of **PACEMAKER**:

FMCSA GUIDELINES FOR HISTORY OF PACEMAKER

- A 1 month waiting period post implantation for Sinus node dysfunction or AV block
- A 3 month waiting period post implantation for Hypersensitive carotid sinus with syncope
- Pacemaker for Neurogenic Syncope is disqualifying
- A combination defibrillator/pacemaker or an ICD by itself is disqualifying.
- The pacemaker must be fully functioning and the driver must be compliant with routine pacemaker checks.

The demands of a commercial driver include loading/unloading heavy cargo, tarping trailers, coupling/uncoupling trailers, inspecting brake lines and putting on tire chains and require perceptual skills to monitor a complex driving situation and judgment skills to make quick decisions in addition to the ability to control an oversize steering wheel, shift gears using a manual transmission, maneuver a vehicle in crowded areas, enter and exit the cab frequently, and the ability to climb ladders on the tractor/trailer.

DOT Medical Clearance: PACEMAKER

If the driver **meets** the above requirements and your recommendation is that the driver can operate a CMV safely, please sign and date below.

Please return this letter to our office by fax to: _____

If the driver **does not meet** the above requirements **and it is your opinion that the driver should be allowed** to drive a commercial vehicle, DOT medical examiners may use discretion if there is sufficient medical reasoning for why the guidelines should not be followed. Should this be the case, please identify in the area below which guideline is not met, and the medical reason the driver is safe to drive.
